## Providing Solutions & Support

---

### **Advantech**

Industry leader of PC-based Controls, HMI & Industrial PCs, Signal Conditioners, Industrial PC Based Controls, and Industrial Converters.

### **Beijers / Cimrex**

Complete selection of high quality Operator Interface Panels for industrial environments, including Touch Panels and Industrial Computers, Beijers has the largest selection of drivers available.

### **Cleveland Motion Control**

Industry leader in the manufacturing of motion control and automation components such as Servo Motors, Actuators, Drives, Controllers, Load Cells, and Soft Pics.

### **Innovative Technologies**

Highest quality transient voltage Surge Suppression products. Hard-wired, Service Entrance and Distribution Panel-board units for commercial and industrial use. IT can also provide the customer with complete building power studies and documented recommendations.

### **Kollmorgen**

The largest selection of Servo Motors, including Direct Drive, Cartridge Motors, and Frameless Motors. Offering motors from Brushless, Synchronous, Stepper, C and Miniature motors. Manufactured in the USA, Danaher Motion offers the very best motor deliveries possible.

### **Maple**

Complete selection of high quality Operator Interface Panels for industrial environments.

### **Microscan**

Leading manufacturer of Bar Code Scanners, and Bar Code Readers.

### **Pepperl + Fuchs**

Complete selection of Inductive, Capacitive, Optical, and Ultrasonic Encoders, and Laser Sensors. Including ASI Bus System Modules, with Devicenet, Profibus interface capabilities.

### **Proface / XYCom**

Complete selection of Industrial computers, PC Based controls, and industrial networking products.

### **Staubli**

World class manufacture of high speed, precision SCARA robots as well as articulate arm robots.

### **Siemens Energy & Automation**

Siemens (formally RVSI / Acuity) is the inventor of the 2-D Data Matrix code, and manufacturer of the best reader and verifier available today. RVSI offers all the features to remain consistent with the current strict government Data Matrix code reading requirements, and when the specifications change, RVSI Acuity also offers machine vision sensors and high performance vision systems.

### **Smartscan**

Complete family of cost effective Safety Light Curtains.

### **Western Reserve Control**

Western Reserve Controls manufactures a complete family of Devicenet Nodes, I/O points, Analog I/O, and Devicenet Communication Converters.
